PROFILE

“A versatile developer with full-stack capabilities, blending expertise in Frontend Development (React.js, HTML, CSS, JavaScript) with a strong foundation in UI/UX design and graphic creation. My comprehensive background in IT Support has honed sharp problem-solving skills and provided a deep understanding of system operations. Passionate about building end-to-end digital solutions and driving innovation in every project.”

WORK EXPERIENCE

Tailor Solutions 2023 - 2025
Frontend Developer

- I've been responsible for developing and maintaining responsive web applications using HTML, CSS, JavaScript, and React.js, ensuring cross-browser compatibility and an optimal user experience. My role includes designing and implementing intuitive User Interfaces (UIs), and I frequently collaborate with backend development teams to integrate APIs smoothly. I also heavily utilize Git for version control, managing code efficiently within our collaborative environment.

Blue Canyon Country Club 2022 - 2023
Graphic Designer

- In this role, I created a wide range of print and digital marketing materials, including posters, logos, and infographics, always ensuring alignment with brand guidelines. I proficiently used Adobe Creative Suite (Photoshop, Illustrator, InDesign) to produce high-quality visual content. I managed multiple design projects simultaneously, effectively incorporating client feedback and collaborating closely with the marketing team to support various promotional strategies.

Thalanghospital 2020 - 2021
IT Support

- My responsibilities included providing comprehensive technical support for hardware, software, and network issues, which significantly helped in minimizing downtime for hospital staff. I was also tasked with maintaining computer systems and performing regular data backups, ensuring optimal performance and data integrity. Furthermore, I installed, configured, and troubleshooted new IT equipment, and created detailed user manuals and problem logs to streamline support processes.
